Directions To Office

From Norwich via Acle (A47):

from Acle roundabout proceed along Acle New Road toward Great Yarmouth until you pass Vauxhall holiday park and reach Asda roundabout. Turn Right, cross new bridge and continue to next roundabout (Gapton Retail Park on Right). Take McDonalds exit from roundabout but continue past the Retail Park for approx 1 mile. At the Peugeot car garage on left, turn left onto James Watt Close. Magellan House is directly ahead when you reach the end of the close. Return journey is identical.

Old Norwich Road (A1064):

from Acle roundabout proceed through to Caister-On-Sea (~9miles) and turn right at Yarmouth Stadium onto main dual carriageway. Proceed (do not bear left at Bus station) until you reach the Sorting Office roundabout. Turn right, passing the railway station / Asda on left and continue to next roundabout. Turn left and cross new bridge. Thereafter continue as above.

From Lowestoft (A12):

stay on main A12 passing Hopton-On-Sea turning & Hospital (on left) until you reach next roundabout. Keep to A12 (new relief road) as it bears right off roundabout and left at next roundabout. You will pass under another bridge as you approach a major roundabout with an electricity pylon within it. This is the Harfreys roundabout - Gapton is the next roundabout straight ahead. McDonalds will be visible on left when you reach Gapton roundabout and you should bear left there. Pass the entrance of Retail Park and McDonalds, continue for another mile until the Peugeot garage on your left. Turn left at the garage and follow James Watt Close to its end. Magellan House is directly ahead.

From Diss (A143):

once over the main bridge at St Olaves you will pass through Fritton and then continue to Bradwell. Enter Bradwell and continue through all traffic lights until you see a flyover bridge where you should bear left. (If you reach the round-

about you travelled too far and should continue until you reach the next major roundabout). Bear left and join dual carriageway until you reach a major roundabout - Harfreys roundabout. Gapton roundabout is the next major roundabout (McDonalds on left) and from there continue as instructed from A12 directions above. (If you approach Harfreys roundabout having missed flyover turn-off, Gapton roundabout is reached by turning right accordingly). Return journey is identical with slip road to left of main dual carriageway.
